CLEAN RADIATORS

SAVE TIME AND FUEL

Thank you for choosing the **Cleanfix® reversible fan**.

Only Cleanfix® reversible fans rotate their fan blades around over the cross position at the touch of a button and effectively clean radiators and screens. Drive power is reduced thanks to the clean radiator and improved cooling. As a result, more power is available simultaneously at the power take-off shaft and at the wheels, and less fuel is consumed.

EFFICIENT COOLING

REVERSING OVER THE CROSS POSITION
